

GHC 2027 Comprehensive Plan / Draft EIS Public Comment Summary by Submitter

Source: GHC-EIS Public-Agency-Organization Comments _Combined.pdf. One row per individual or organization; repeated submissions are grouped and comment IDs are shown in parentheses.

Total listed comment IDs reviewed: 142. Unique submitter/organization rows: 128.

Individual or Organization (Comment ID[s])	Comments Submitted	Main Subject / Concern Summary
Rachael Hahn (GHC-001)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources, infrastructure/roads/emergency services.
Randy Dutton (GHC-002)	1	Rural landowner/property-rights comment: concerns about G-5/DFL restrictions, property-tax pressure, critical-area/wildfire/well requirements, A-20 parcels split by rivers, one-lane bridges, and practical forestry/riverbank maintenance.
Renzel Mehlhoff (GHC-003)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources, AI/surveillance/privacy.
Rob Horton (GHC-004, GHC-005, GHC-056)	3	All comments request one ADU on 5-acre G5 Rural Lands parcels. Main concern: rural housing flexibility, aging-in-place, family support, and small-scale rural economic stability without increasing rural density or straining infrastructure.
Robert Riley (GHC-006)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include rural character/natural resources.
Robin Moore (GHC-007)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
Ronan Murphy (GHC-008)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, AI/surveillance/privacy, infrastructure/roads/emergency services.
Sara Windsor (GHC-009)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, noise/light/quality of life, AI/surveillance/privacy.
Sharlene Gillies (GHC-010)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, noise/light/quality of life.
Tia Lutz (GHC-011)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources, infrastructure/roads/emergency services.
Toby Svoboda (GHC-012)	1	Requested sidewalk or pedestrian-safety improvements along the old highway in Elma because of traffic speed, blind curves, pedestrians, seniors, children, and access to town/businesses.
Tracey Cumberbatch (GHC-013)	1	Requested small-scale senior/affordable cottage or clustered housing options; concern that land-use alternatives should support independent living for aging and lower-income residents near services.

Trina Young (GHC-014)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources, infrastructure/roads/emergency services.
Tsuki Fox (GHC-015, GHC-111)	2	Two comments opposing data centers and calling for a moratorium or exclusion from rural areas. Main concerns: rural character, water/electricity demand, noise/light/traffic, tourism, natural resources, and insufficient DEIS analysis.
Vickie Starr Cordova (GHC-016)	1	Requested flexibility to split rural property into 3- to 5-acre parcels; concern about fixed-income retirement, affordability, and ability to remain on the property.
William Jefferson (GHC-017)	1	Opposed the plan/EIS as an unreasonable regulatory burden; concern about outside consultants, private property rights, rural economics, and local control over land use.
Jennifer Johansen (GHC-018)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, costs/taxes/subsidies/jobs.
Jennifer Lipford (GHC-019, GHC-020)	2	Two data-center opposition comments. Main concerns: high water/electricity demand, local costs, corporate benefit, few lasting community benefits, rural/natural-resource impacts, and lack of community support.
Jo Wilde (GHC-021)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
John Newman (GHC-022)	1	Adopted/forwarded FOGH-style DEIS critique; concern that the DEIS lacks adequate SEPA disclosure, localized analysis, regulatory review, demographics, and clear responses to technical deficiencies.
Justin Anderson (GHC-023)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.
Karen Brownlee (GHC-024)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
Kathryn Myrsell (GHC-025)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, rural character/natural resources, climate/flooding/stormwater.
Kathy Hoiland (GHC-026)	1	Parcel/access comment: wants to use Roosevelt Beach lots for family camping and notes a road/access need.
Lee Riner (GHC-027)	1	Environmental protection comment: supports critical-area protection, clean water, wetland and stream buffers, wider logging buffers, climate/drought response, and fish habitat protection.
Lisa Sampson (GHC-028)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.

Marina Kuran (GHC-029)	1	Growth-management and zoning comment: asks for updated zoning, better groundwater/ecosystem protections, less overreliance on residential tax revenue, and stronger review of subdivisions and incompatible adjacent uses.
Michelle de Beauchamp (GHC-030)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, infrastructure/roads/emergency services.
Bethany Northrop (GHC-031, GHC-034)	2	Comments oppose data centers/AI facilities. Main concerns: water and electricity demand, pollution, noise, health, rural character, local costs, and inadequate public benefit.
Nick Davis (GHC-032)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include costs/taxes/subsidies/jobs.
Nicole Lynch (GHC-033)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, AI/surveillance/privacy.
Janice (GHC-035)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Bonnie Blessing (GHC-036, GHC-037, GHC-038)	3	Three environmental/habitat comments with technical attachments. Main concerns: wetlands, stormwater, fish/wildlife habitat, PHS species, Olympic mudminnow, shorebirds, dunes, farm fields, water quality, best available science, and stronger habitat protections.
Candice Bachtell (GHC-039)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
Christopher Burns (GHC-040)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, costs/taxes/subsidies/jobs, infrastructure/roads/emergency services.
Connie DeCristofaro (GHC-041)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include rural character/natural resources.
Craig Zora (GHC-042)	1	Asked when cleanup will begin at the County Maintenance Shop/Cosmopolis cleanup site.
Cynthia Chadwick Cuschieri (GHC-043)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include pollution/toxics/health, costs/taxes/subsidies/jobs.
Jennifer Charkow (GHC-044)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, costs/taxes/subsidies/jobs, AI/surveillance/privacy.
Donna Albert (GHC-045, GHC-116)	2	Two comments: one requested more public review time/hearing access, and one provided an extensive DEIS critique. Main concerns: alternatives that do not provide real choices, SEPA adequacy, wetlands/water/stormwater impacts, and standards for large-impact facilities.

Gary Lennon (GHC-046)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.
James Madison (GHC-047, GHC-048, GHC-117)	3	Three comments challenging the Comprehensive Plan/EIS. Main concerns: public access and process, local control, economic and tax impacts, private property/rural impacts, and whether long-range planning assumptions protect ordinary residents.
Serena (GHC-049)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, infrastructure/roads/emergency services.
Sharon Bell-Armstrong (GHC-050)	1	General environmental protection comment urging strong protection for plant/animal life and against choices that could harm the environment.
Sreng Hou (GHC-051)	1	Administrative/property question asking about survey/boundary work for specific Aberdeen land parcels.
Sue Wilson (GHC-052)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, infrastructure/roads/emergency services.
Theresa Manary (GHC-053)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Tiffani (GHC-054)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
Amie Anderson (GHC-055)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
Liz (GHC-057)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.
Lori Lennox (GHC-058)	1	Rural character/redevelopment comment: prefers rebuilding existing derelict areas over sprawl and loss of rural character.
Lucy Allen (GHC-059)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Mary Dierick (GHC-060)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Melinda Einander (GHC-061)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, noise/light/quality of life.

Misty Byrd (GHC-062)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Norman Coughtry (GHC-063)	1	Administrative land-sale question asking how to sell land in Grays Harbor for a reasonable price.
Paige Riege (GHC-064)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Robert Y Sorita (GHC-065)	1	Administrative request asking for a planning map to review.
Roy Vataja (GHC-066)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include costs/taxes/subsidies/jobs.
Jill Bellis (GHC-067)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, costs/taxes/subsidies/jobs.
Jill Warne (GHC-068)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Joan Lesman (GHC-069, GHC-070)	2	Two comments opposing data/AI centers and requesting transparency. Main concerns: disclosure of any company/financing, water and power use, noise, local costs, privacy/AI concerns, and whether the County is being transparent.
Joanne Gossett (GHC-071)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include costs/taxes/subsidies/jobs.
Jody Peterson (GHC-072)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include pollution/toxics/health, noise/light/quality of life.
John Goodwin (GHC-073)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, AI/surveillance/privacy.
Justin Blake (GHC-074)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Kaitlyn Nicole Davis (GHC-075)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources.
Keely Parker (GHC-076)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include pollution/toxics/health, noise/light/quality of life, AI/surveillance/privacy, infrastructure/roads/emergency services.

Kellee Anderson (GHC-077)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include costs/taxes/subsidies/jobs, rural character/natural resources.
Krissi Brunoe (GHC-078)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
Ashley Anderson (GHC-079)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health.
Ashley Hargis (GHC-080)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, infrastructure/roads/emergency services.
Autumn Melvard (GHC-081)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Jeni Cate (GHC-082)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, costs/taxes/subsidies/jobs, AI/surveillance/privacy.
Bob Carter (GHC-083)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, rural character/natural resources.
Cecelia Ketola (GHC-084)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Cindy Smith (GHC-085)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, rural character/natural resources.
Claire Bowe (GHC-086)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, costs/taxes/subsidies/jobs, rural character/natural resources, AI/surveillance/privacy.
Debbi Branford Jensen (GHC-087)	1	Comment focused on general planning comment or administrative request; concern was that the plan should address these issues before adoption.
Diane Blair (GHC-088)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include electricity/grid/rates, pollution/toxics/health, noise/light/quality of life.
Diane Brittell (GHC-089)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Donna L Wilder (GHC-090)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.

Erin Jeffreys (GHC-091)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Evelyne Pink (GHC-092)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.
Heather Nevares (GHC-093)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include AI/surveillance/privacy.
Neal Nosek (GHC-094, GHC-108)	2	One follow-up/receipt note and one substantive Pacific Beach/Moclips land-use comment. Main concerns: rejecting resort-driven mixed-use/high-density zoning, protecting permanent residents, avoiding tax displacement, coastal hazards, infrastructure, and evacuation impacts.
Rebecca Petheram (GHC-095)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include infrastructure/roads/emergency services.
Taylor Ann Summers (GHC-096)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, costs/taxes/subsidies/jobs.
Zaneta norquist (GHC-097)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Deb Blecha (GHC-098)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources, infrastructure/roads/emergency services.
Ila Whitsey (GHC-099)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Janene Petersen (GHC-100)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
Janet Lintz (GHC-101)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs.
Jennie McLean (GHC-102)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
Jennifer carr (GHC-103)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs.
Jessica Roberts (GHC-104)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, rural character/natural resources, infrastructure/roads/emergency services.

Jessica Todd (GHC-105)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, noise/light/quality of life, infrastructure/roads/emergency services.
Leigh Rowley (GHC-106)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Leslie Irick (GHC-107)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs, AI/surveillance/privacy.
Ben Garrett (GHC-109)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
Teri Franklin (GHC-110)	1	Planning-history/environmental comment: urges protection of agricultural/resource lands, rural character, water supply, fisheries, habitat restoration, flood control, and grant obligations.
Annmarie Willis (GHC-112)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources, infrastructure/roads/emergency services.
Barbara Harm (GHC-113)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, rural character/natural resources, infrastructure/roads/emergency services.
Brittany Espedal (GHC-114)	1	DEIS housing-capacity comment: asks whether dwelling-unit allocations are realistic given wetlands, flood/erosion/landslide hazards, utilities, transportation, mineral resources, and development regulations.
Dana Larson (GHC-115)	1	DEIS process/technical comment: asks for stronger city coordination, realistic commercial growth assumptions, analysis of biomass/wood-pellet combustion, infrastructure, and clearer plan adjustments.
Kathy Schaeffer (GHC-118)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
Linda Meister (GHC-119)	1	Public-process/transparency comment: says more information should have been sent to residents earlier and that the public needs better notice.
Linda Robertson (GHC-120)	1	South Beach environmental/community comment: stresses love of local water, trees, wildlife, wetlands, coastal resources, public safety, critical areas, sea-level rise, and impacts of growth on ecosystems and residents.
Marie Oestreich (GHC-121)	1	General resident comment opposing large industrial impacts and asking the County to preserve natural resources and the character of Grays Harbor.
Stephanie Bellon (GHC-122)	1	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.

Natalie Doelman (GHC-123)	1	Supports growth-plan clarification and flexibility for agricultural/agritourism uses; concern that farms need flexibility to remain economically viable while maintaining agricultural character.
Carey Bentson (GHC-124)	1	Handwritten comment opposing data centers; concerns about heavy water use, high electricity demand, noise, and shifting costs onto surrounding communities rather than the facility/users.
Jose Hernandez Lopez (GHC-125)	1	Handwritten comment requesting specific language prohibiting data centers or facilities over 2,000 square feet/2 MW; opposes data centers in Grays Harbor County.
John Fields (GHC-126)	1	Handwritten comment asks to keep agricultural zoning, protect water for agriculture, include small agricultural lots on soil maps, keep agriculture under right-to-farm protections, and prevent agricultural land being converted away from farming/wildlife purposes; also opposes data centers.
Terry Willis (GHC-127)	1	Handwritten agricultural-property comment asking to remove A-1-3 provisions that create building lots out of 20-acre parcels; supports family/caretaker housing already allowed on farms.
Elizabeth Bentson (GHC-128)	1	Handwritten comment opposing AI/data centers; concerns include drought, water use, grid strain/outages, voltage spikes, fire risk, water mining, waste, noise, and fossil-fuel reliance.
Kyndal Meister (GHC-129)	1	Handwritten comment asks for specific language preventing the land-use plan from being co-opted into data-center language; concern about opaque wording and outside interests.
Janet Strong (GHC-130)	1	Handwritten comment opposing large data centers, asking for more time to review the Comp Plan, and requesting greater transparency so residents are well informed.
Kathy Pierson (GHC-131, GHC-132)	2	Two handwritten comments. Main concerns: better direct notice to affected property owners for nearby development, and a more reasonable/affordable policy for permitting or correcting unpermitted structures.
WA Dept of Natural Resources (ORG-01)	1	DNR/Washington Geological Survey technical comment: asks for corrections and fuller analysis of geologic hazards, landslides, mineral/resource information, mapping resources, and natural-hazard references in the DEIS/plan.
Friends of Grays Harbor (ORG-02)	1	Friends of Grays Harbor technical DEIS critique: concerns include ORMA omission, wetlands, hydrology, stormwater, water quality, shellfish/estuary resources, sea-level rise, flood/evacuation infrastructure, cumulative impacts, and need for an environmentally preferable alternative.
Twin Harbors Waterkeeper (ORG-03, ORG-04)	2	Two technical organization comments. Main concerns: standards for large-impact/data-center facilities; water and power impacts; public participation; financial assurance; climate/decommissioning; and stronger wetlands, buffers, mitigation, hydrology, impaired-waters, shellfish, and fishery protections.
WA Dept of Fish and Wildlife (ORG-05)	1	WDFW agency comment: supports lower-impact alternative direction and recommends best available science, habitat connectivity, fish/wildlife and shoreline protections, PHS data use, and coordination with WDFW.
Wise Use Movement (ORG-06)	1	Wise Use Movement comment: focuses on Port-driven development, estuary/tideflat impacts, Satsop/Chehalis watershed sediment and water concerns, cumulative impact analysis, speculative projects, and protection of Grays Harbor estuary.

Daily World (ORG-07)	1	Daily World inquiry: administrative/media question regarding the extended comment period and comprehensive-plan process.
Grays Harbor Audubon Society (ORG-08)	1	Grays Harbor Audubon Society comment: emphasizes the unique importance of the Grays Harbor estuary, migratory shorebirds, Pacific Flyway habitat, wildlife, and concern over water/energy-intensive development.
Conservation Northwest (ORG-09)	1	Conservation Northwest comment: asks the County to prevent land-use conversion that harms rural character, natural resources, wildlife habitat, and existing regional wildlife corridors; supports connectivity and riparian restoration.
Citizens for a Clean Harbor (ORG-10)	1	Citizens for a Clean Harbor comment: asks for rigorous local review, public participation, and safeguards for community, water, climate, and environmental impacts of any major industrial/high-impact proposal.

Comment ID	Submitter / Organization	Page Range	Comment-Level Topic / Concern Summary
GHC-001	Rachael Hahn	5-6	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources, infrastructure/roads/emergency services.
GHC-002	Randy Dutton	7-9	Rural landowner/property-rights comment: concerns about G-5/DFL restrictions, property-tax pressure, critical-area/wildfire/well requirements, A-20 parcels split by rivers, one-lane bridges, and practical forestry/riverbank maintenance.
GHC-003	Renzel Mehlhoff	10-12	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources, AI/surveillance/privacy.
GHC-004	Rob Horton	13-13	Requested a policy allowing one ADU on 5-acre G5 Rural Lands parcels to support family housing, aging in place, rural economic stability, and low-impact rural housing flexibility.
GHC-005	Rob Horton	14-14	Repeated/supporting ADU request for one accessory dwelling unit on 5-acre G5 parcels; asks staff to include the option in alternatives and analyze compatibility with rural housing goals.
GHC-006	Robert Riley	15-15	Opposed or urged restrictions on data centers/AI facilities; concerns include rural character/natural resources.
GHC-007	Robin Moore	16-16	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
GHC-008	Ronan Murphy	17-17	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, AI/surveillance/privacy, infrastructure/roads/emergency services.
GHC-009	Sara Windsor	18-18	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, noise/light/quality of life, AI/surveillance/privacy.
GHC-010	Sharlene Gillies	19-19	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, noise/light/quality of life.
GHC-011	Tia Lutz	20-21	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources, infrastructure/roads/emergency services.
GHC-012	Toby Svoboda	22-22	Requested sidewalk or pedestrian-safety improvements along the old highway in Elma because of traffic speed, blind curves, pedestrians, seniors, children, and access to town/businesses.
GHC-013	Tracey Cumberbatch	23-23	Requested small-scale senior/affordable cottage or clustered housing options; concern that land-use alternatives should support independent living for aging and lower-income residents near services.
GHC-014	Trina Young	24-24	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources, infrastructure/roads/emergency services.

GHC-015	Tsuki Fox	25-26	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
GHC-016	Vickie Starr Cordova	27-27	Requested flexibility to split rural property into 3- to 5-acre parcels; concern about fixed-income retirement, affordability, and ability to remain on the property.
GHC-017	William Jefferson	28-29	Opposed the plan/EIS as an unreasonable regulatory burden; concern about outside consultants, private property rights, rural economics, and local control over land use.
GHC-018	Jennifer Johansen	30-30	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, costs/taxes/subsidies/jobs.
GHC-019	Jennifer Lipford	31-31	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-020	Jennifer Lipford	32-32	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-021	Jo Wilde	33-33	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-022	John Newman	34-34	Adopted/forwarded FOGH-style DEIS critique; concern that the DEIS lacks adequate SEPA disclosure, localized analysis, regulatory review, demographics, and clear responses to technical deficiencies.
GHC-023	Justin Anderson	35-35	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.
GHC-024	Karen Brownlee	36-36	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
GHC-025	Kathryn Myrsell	37-37	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, rural character/natural resources, climate/flooding/stormwater.
GHC-026	Kathy Hoiland	38-39	Parcel/access comment: wants to use Roosevelt Beach lots for family camping and notes a road/access need.
GHC-027	Lee Riner	40-40	Environmental protection comment: supports critical-area protection, clean water, wetland and stream buffers, wider logging buffers, climate/drought response, and fish habitat protection.
GHC-028	Lisa Sampson	41-41	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.

GHC-029	Marina Kuran	42-43	Growth-management and zoning comment: asks for updated zoning, better groundwater/ecosystem protections, less overreliance on residential tax revenue, and stronger review of subdivisions and incompatible adjacent uses.
GHC-030	Michelle de Beauchamp	44-46	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, infrastructure/roads/emergency services.
GHC-031	Bethany Northrop	47-47	Opposed or urged restrictions on data centers/AI facilities; concerns include electricity/grid/rates, costs/taxes/subsidies/jobs.
GHC-032	Nick Davis	48-48	Opposed or urged restrictions on data centers/AI facilities; concerns include costs/taxes/subsidies/jobs.
GHC-033	Nicole Lynch	49-49	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, AI/surveillance/privacy.
GHC-034	Bethany Northrop	50-50	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health.
GHC-035	Janice	51-51	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-036	Bonnie Blessing	52-52	Follow-up/correspondence regarding Draft EIS comments; substantive concern appears connected to Bonnie Blessing's environmental and habitat comments submitted separately.
GHC-037	Bonnie Blessing	53-56	Initial Bonnie Blessing submission/attachment; concerns include wildlife moving between counties, coastal dunes, farm fields, open space, salmon/shorebirds, and protection of coastal ecosystems.
GHC-038	Bonnie Blessing	57-90	Extensive technical/environmental submission with attachments; concerns include wetlands, stormwater, fish and wildlife habitat, PHS species, Olympic mudminnow, shorebirds, dunes, farms, water quality, and stronger use of best available science.
GHC-039	Candice Bachtell	91-93	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
GHC-040	Christopher Burns	94-94	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, costs/taxes/subsidies/jobs, infrastructure/roads/emergency services.
GHC-041	Connie DeCristofaro	95-95	Opposed or urged restrictions on data centers/AI facilities; concerns include rural character/natural resources.
GHC-042	Craig Zora	96-96	Asked when cleanup will begin at the County Maintenance Shop/Cosmopolis cleanup site.

GHC-043	Cynthia Chadwick Cuschieri	97-97	Opposed or urged restrictions on data centers/AI facilities; concerns include pollution/toxics/health, costs/taxes/subsidies/jobs.
GHC-044	Jennifer Charkow	98-98	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, costs/taxes/subsidies/jobs, AI/surveillance/privacy.
GHC-045	Donna Albert	99-99	Public-process comment: asks for hearing/recording access and more time for public review/comment on the Draft EIS and comprehensive plan.
GHC-046	Gary Lennon	100-100	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.
GHC-047	James Madison	101-102	Process/property-rights comment challenging the Comprehensive Plan/EIS; concerns about public access, local control, economic impacts, and whether the plan properly reflects rural residents.
GHC-048	James Madison	103-105	Supplemental comment challenging the Draft EIS; concerns about alternatives, assumptions, economic impacts, rural property rights, and the need for more complete review before adoption.
GHC-049	Serena	106-106	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, infrastructure/roads/emergency services.
GHC-050	Sharon Bell-Armstrong	107-107	General environmental protection comment urging strong protection for plant/animal life and against choices that could harm the environment.
GHC-051	Sreng Hou	108-108	Administrative/property question asking about survey/boundary work for specific Aberdeen land parcels.
GHC-052	Sue Wilson	109-109	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, infrastructure/roads/emergency services.
GHC-053	Theresa Manary	110-110	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-054	Tiffani	111-111	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
GHC-055	Amie Anderson	112-113	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
GHC-056	Rob Horton	114-114	Formal ADU request by Rob Horton: asks for one ADU on 5-acre G5 Rural Lands parcels; concern is flexible rural housing, aging in place, and low-impact development without changing rural density.

GHC-057	Liz	115-115	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.
GHC-058	Lori Lennox	116-116	Rural character/redevelopment comment: prefers rebuilding existing derelict areas over sprawl and loss of rural character.
GHC-059	Lucy Allen	117-117	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-060	Mary Dierick	118-118	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-061	Melinda Einander	119-119	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, noise/light/quality of life.
GHC-062	Misty Byrd	120-120	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-063	Norman Coughtry	121-121	Administrative land-sale question asking how to sell land in Grays Harbor for a reasonable price.
GHC-064	Paige Riege	122-122	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-065	Robert Y Sorita	123-123	Administrative request asking for a planning map to review.
GHC-066	Roy Vataja	124-124	Opposed or urged restrictions on data centers/AI facilities; concerns include costs/taxes/subsidies/jobs.
GHC-067	Jill Bellis	125-125	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, costs/taxes/subsidies/jobs.
GHC-068	Jill Warne	126-126	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-069	Joan Lesman	127-127	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs.
GHC-070	Joan Lesman	128-128	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, costs/taxes/subsidies/jobs, rural character/natural resources, AI/surveillance/privacy.

GHC-071	Joanne Gossett	129-129	Opposed or urged restrictions on data centers/AI facilities; concerns include costs/taxes/subsidies/jobs.
GHC-072	Jody Peterson	130-130	Opposed or urged restrictions on data centers/AI facilities; concerns include pollution/toxics/health, noise/light/quality of life.
GHC-073	John Goodwin	131-131	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, AI/surveillance/privacy.
GHC-074	Justin Blake	132-132	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-075	Kaitlyn Nicole Davis	133-133	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, costs/taxes/subsidies/jobs, rural character/natural resources.
GHC-076	Keely Parker	134-134	Opposed or urged restrictions on data centers/AI facilities; concerns include pollution/toxics/health, noise/light/quality of life, AI/surveillance/privacy, infrastructure/roads/emergency services.
GHC-077	Kellee Anderson	135-135	Opposed or urged restrictions on data centers/AI facilities; concerns include costs/taxes/subsidies/jobs, rural character/natural resources.
GHC-078	Krissi Brunoe	136-136	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
GHC-079	Ashley Anderson	137-137	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health.
GHC-080	Ashley Hargis	138-139	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, infrastructure/roads/emergency services.
GHC-081	Autumn Melvard	140-140	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-082	Jeni Cate	141-141	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, costs/taxes/subsidies/jobs, AI/surveillance/privacy.
GHC-083	Bob Carter	142-142	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, rural character/natural resources.
GHC-084	Cecelia Ketola	143-143	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.

GHC-085	Cindy Smith	144-144	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, rural character/natural resources.
GHC-086	Claire Bowe	145-145	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, costs/taxes/subsidies/jobs, rural character/natural resources, AI/surveillance/privacy.
GHC-087	Debbi Branford Jensen	146-146	Comment focused on general planning comment or administrative request; concern was that the plan should address these issues before adoption.
GHC-088	Diane Blair	147-147	Opposed or urged restrictions on data centers/AI facilities; concerns include electricity/grid/rates, pollution/toxics/health, noise/light/quality of life.
GHC-089	Diane Brittell	148-148	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-090	Donna L Wilder	149-149	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-091	Erin Jeffreys	150-150	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-092	Evelyne Pink	151-151	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources.
GHC-093	Heather Nevares	152-152	Opposed or urged restrictions on data centers/AI facilities; concerns include AI/surveillance/privacy.
GHC-094	Neal Nosek	153-153	Follow-up confirming receipt of previously submitted Pacific Beach comments/PDF and adding mailing address; substantive zoning concerns are reflected in GHC-108.
GHC-095	Rebecca Petheram	154-154	Opposed or urged restrictions on data centers/AI facilities; concerns include infrastructure/roads/emergency services.
GHC-096	Taylor Ann Summers	155-155	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, pollution/toxics/health, costs/taxes/subsidies/jobs.
GHC-097	Zaneta norquist	156-156	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-098	Deb Blecha	157-158	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources, infrastructure/roads/emergency services.

GHC-099	Ila Whitsey	159-159	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-100	Janene Petersen	160-160	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
GHC-101	Janet Lintz	161-161	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs.
GHC-102	Jennie McLean	162-162	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers.
GHC-103	Jennifer carr	163-163	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs.
GHC-104	Jessica Roberts	164-165	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, rural character/natural resources, infrastructure/roads/emergency services.
GHC-105	Jessica Todd	166-166	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, noise/light/quality of life, infrastructure/roads/emergency services.
GHC-106	Leigh Rowley	167-167	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-107	Leslie Irick	168-168	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, costs/taxes/subsidies/jobs, AI/surveillance/privacy.
GHC-108	Neal Nosek	169-170	Pacific Beach/Moclips land-use comment: opposes resort-driven mixed-use/high-density zoning; concerns include permanent residents, property-tax pressure, evacuation/infrastructure, coastal hazards, and preserving residential community character.
GHC-109	Ben Garrett	171-171	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-110	Teri Franklin	172-174	Planning-history/environmental comment: urges protection of agricultural/resource lands, rural character, water supply, fisheries, habitat restoration, flood control, and grant obligations.
GHC-111	Tsuki Fox	175-180	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
GHC-112	Annmari Willis	181-182	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, rural character/natural resources, infrastructure/roads/emergency services.

GHC-113	Barbara Harm	183-184	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, rural character/natural resources, infrastructure/roads/emergency services.
GHC-114	Brittany Espedal	185-186	DEIS housing-capacity comment: asks whether dwelling-unit allocations are realistic given wetlands, flood/erosion/landslide hazards, utilities, transportation, mineral resources, and development regulations.
GHC-115	Dana Larson	187-188	DEIS process/technical comment: asks for stronger city coordination, realistic commercial growth assumptions, analysis of biomass/wood-pellet combustion, infrastructure, and clearer plan adjustments.
GHC-116	Donna Albert	189-205	Extensive DEIS critique: argues the alternatives do not offer meaningful choices; requests rewritten alternatives, stronger analysis of wetlands/water/stormwater, and detailed policy questions including large-impact facility standards.
GHC-117	James Madison	206-208	Economic/regulatory burden comment: concerns about carbon-tax/property-value effects, local tax burden, passive leadership, and long-range planning assumptions affecting ordinary citizens.
GHC-118	Kathy Schaeffer	209-210	Opposed or urged restrictions on data centers/AI facilities; concerns include water/drinking water/aquifers, electricity/grid/rates, pollution/toxics/health, noise/light/quality of life, costs/taxes/subsidies/jobs, rural character/natural resources.
GHC-119	Linda Meister	211-211	Public-process/transparency comment: says more information should have been sent to residents earlier and that the public needs better notice.
GHC-120	Linda Robertson	212-216	South Beach environmental/community comment: stresses love of local water, trees, wildlife, wetlands, coastal resources, public safety, critical areas, sea-level rise, and impacts of growth on ecosystems and residents.
GHC-121	Marie Oestreich	217-217	General resident comment opposing large industrial impacts and asking the County to preserve natural resources and the character of Grays Harbor.
GHC-122	Stephanie Bellon	218-218	Opposed or urged restrictions on data centers/AI facilities; concerns include general community/environmental impacts.
GHC-123	Natalie Doelman	219-219	Supports growth-plan clarification and flexibility for agricultural/agritourism uses; concern that farms need flexibility to remain economically viable while maintaining agricultural character.
GHC-124	Carey Bentson	220-221	Handwritten comment opposing data centers; concerns about heavy water use, high electricity demand, noise, and shifting costs onto surrounding communities rather than the facility/users.
GHC-125	Jose Hernandez Lopez	222-222	Handwritten comment requesting specific language prohibiting data centers or facilities over 2,000 square feet/2 MW; opposes data centers in Grays Harbor County.
GHC-126	John Fields	223-224	Handwritten comment asks to keep agricultural zoning, protect water for agriculture, include small agricultural lots on soil maps, keep agriculture under right-to-farm protections, and prevent agricultural land being converted away from farming/wildlife purposes; also opposes data centers.

GHC-127	Terry Willis	225-225	Handwritten agricultural-property comment asking to remove A-1-3 provisions that create building lots out of 20-acre parcels; supports family/caretaker housing already allowed on farms.
GHC-128	Elizabeth Bentson	226-227	Handwritten comment opposing AI/data centers; concerns include drought, water use, grid strain/outages, voltage spikes, fire risk, water mining, waste, noise, and fossil-fuel reliance.
GHC-129	Kyndal Meister	228-228	Handwritten comment asks for specific language preventing the land-use plan from being co-opted into data-center language; concern about opaque wording and outside interests.
GHC-130	Janet Strong	229-229	Handwritten comment opposing large data centers, asking for more time to review the Comp Plan, and requesting greater transparency so residents are well informed.
GHC-131	Kathy Pierson	230-230	Handwritten notice-process comment requesting personalized/addressed notices to property owners affected by development, especially in general development zones and within a 5- to 10-mile radius.
GHC-132	Kathy Pierson	231-231	Handwritten permitting-policy comment asking the County to adopt a more reasonable policy for permitting/facilitating unpermitted structures; concern that the current approach is financially unreasonable and wasteful.
ORG-01	WA Dept of Natural Resources	232-235	DNR/Washington Geological Survey technical comment: asks for corrections and fuller analysis of geologic hazards, landslides, mineral/resource information, mapping resources, and natural-hazard references in the DEIS/plan.
ORG-02	Friends of Grays Harbor	236-241	Friends of Grays Harbor technical DEIS critique: concerns include ORMA omission, wetlands, hydrology, stormwater, water quality, shellfish/estuary resources, sea-level rise, flood/evacuation infrastructure, cumulative impacts, and need for an environmentally preferable alternative.
ORG-03	Twin Harbors Waterkeeper	242-247	Twin Harbors Waterkeeper policy comment focused on large-impact/data-center standards: asks for definitions, caps, water/power conditions, public participation, financial assurance, reporting, climate review, and decommissioning.
ORG-04	Twin Harbors Waterkeeper	248-252	Twin Harbors Waterkeeper wetland/water comment: asks for stronger wetland protections, avoidance hierarchy, non-reducible buffers, mitigation standards, cumulative hydrology analysis, aquifer/well impacts, impaired waters review, and shellfish/fishery protections.
ORG-05	WA Dept of Fish and Wildlife	253-256	WDFW agency comment: supports lower-impact alternative direction and recommends best available science, habitat connectivity, fish/wildlife and shoreline protections, PHS data use, and coordination with WDFW.
ORG-06	Wise Use Movement	257-260	Wise Use Movement comment: focuses on Port-driven development, estuary/tideflat impacts, Satsop/Chehalis watershed sediment and water concerns, cumulative impact analysis, speculative projects, and protection of Grays Harbor estuary.
ORG-07	Daily World	261-261	Daily World inquiry: administrative/media question regarding the extended comment period and comprehensive-plan process.
ORG-08	Grays Harbor Audubon Society	262-264	Grays Harbor Audubon Society comment: emphasizes the unique importance of the Grays Harbor estuary, migratory shorebirds, Pacific Flyway habitat, wildlife, and concern over water/energy-intensive development.

ORG-09	Conservation Northwest	265-268	Conservation Northwest comment: asks the County to prevent land-use conversion that harms rural character, natural resources, wildlife habitat, and existing regional wildlife corridors; supports connectivity and riparian restoration.
ORG-10	Citizens for a Clean Harbor	269-270	Citizens for a Clean Harbor comment: asks for rigorous local review, public participation, and safeguards for community, water, climate, and environmental impacts of any major industrial/high-impact proposal.
